Seismic
San Diego, California

March 20, 2024

Dear Hiring Manager,

I am writing to express my strong interest in the Machine Learning Engineer and Data Science intern position at Seismic, as advertised. With a background in STEM focusing on Machine Learning and Data Science, and a keen enthusiasm for leveraging cutting-edge technologies to drive innovation, I am excited about the opportunity to contribute to Seismic's global leadership in sales enablement.

My academic foundation in Machine Learning, AI, and Computer Science aligns perfectly with the requirements of the role at Seismic. During my studies, I have developed a solid understanding of a wide range of technologies such as AI, Generative AI, and Python libraries, which I am eager to apply in a practical setting. Additionally, my strong organizational skills and attention to detail have been instrumental in my academic projects, ensuring precision and efficiency in my work.

Seismic's commitment to a knowledge-sharing environment and fostering growth among its employees resonates with my values and professional aspirations. I am enthusiastic about the opportunity to collaborate with a team of experts in Machine Learning, software development, and product management to bring AI capabilities to life and enhance user experiences. I am eager to contribute to Seismic's innovative projects and immerse myself in the fast-paced world of Enterprise SaaS product development.
