Intel Corporation
Santa Clara, California

March 20, 2024

Dear Hiring Manager,

I am writing to express my strong interest in the Information Security Engineer Undergrad Intern position at Intel. With a Bachelor's degree in Computer Science and valuable experience in information security models, data analytics, and cloud computing, I am excited about the opportunity to contribute to Intel's mission of creating world-changing technology.

During my academic journey, I have honed my skills in data science, data analytics, and data visualization techniques. My proficiency in SQL, both relational databases like SQL Server and NoSQL databases, combined with my scripting abilities in Python and PowerShell, will enable me to excel in managing and maintaining security compliance, system automation, and deployment tasks at Intel.

Moreover, my familiarity with Agile methodologies, security vulnerabilities, and remediation techniques, as well as Linux and Windows system administration, positions me well to support key projects and initiatives as an Information Security Engineer Intern at Intel. I am eager to further develop my knowledge in secure software development lifecycle and AI concepts under the guidance of Intel's experienced professionals.

With a proactive approach to problem-solving, excellent communication skills, and a strong desire to learn and grow in the field of information security, I am confident in my ability to positively impact Intel's security capabilities. I am enthusiastic about the opportunity to contribute to Intel's innovative projects and collaborate with a team of dedicated professionals.
