Chime  
San Francisco, California

March 20, 2024

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Software Engineering Intern position at Chime. Currently pursuing a Bachelor's degree in Artificial Intelligence at Long Island University, with a focus on relevant courses such as Machine Learning, Deep Learning, and Software Engineering, I believe I possess the technical foundation and skills that align well with the requirements for this role.

During my time as an AI Research Assistant at LIU Brooklyn, I led projects utilizing advanced technologies like PyTorch for CNN development and TensorFlow for Computer Vision applications. These experiences have honed my proficiency in software development and problem-solving, preparing me to work alongside Chime's engineering team to design and maintain innovative financial software solutions.

Chime's commitment to empowering individuals through financial progress resonates with my passion for utilizing technology to make a positive impact. I am excited about the opportunity to collaborate with cross-functional teams, contribute to cutting-edge projects, and gain exposure to a variety of software technologies as described in the role.
