Seismic
San Diego, California

March 20, 2024

Dear Hiring Manager,

I am writing to express my interest in the Cloud Engineering internship position at Seismic for the Summer of 2024, as advertised. With a strong foundation in cloud architecture, open source technologies, and a keen enthusiasm for learning and contributing to innovative projects, I am excited about the opportunity to collaborate with a leading company in sales enablement like Seismic.

During my academic journey in **STEM majors**, set to graduate in Spring 2025, I have honed my technical skills and gained practical experience in building micro-service-based systems. I have a solid understanding of a variety of technologies, including **Azure, AWS, React, Typescript, C/.NET**, and more, aligning well with the technological requirements of the position.

Moreover, my strong communication skills, attention to detail, and passion for leveraging technology to drive business growth make me a suitable candidate to work in an Agile, cloud-based environment as part of the Seismic team.

I am eager to bring my energy, ambition, and technical expertise to Seismic, contributing to the development of innovative solutions that empower sales and marketing teams to excel.

Thank you for considering my application. I am looking forward to the possibility of contributing to Seismic and leveraging this internship opportunity to further develop my skills and knowledge in cloud engineering.
