Recorded Future  
Somerville, Massachusetts

March 20, 2024

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Software Engineering Intern position at Recorded Future. As a Bachelor in Artificial Intelligence student at Long Island University Brooklyn, with a strong foundation in Software Engineering, including Modern Cryptography and Data Mining, I am excited about the opportunity to contribute to a leading intelligence company like Recorded Future.

During my academic journey, I have acquired valuable skills in Python programming and data analysis, as well as a deep understanding of complex data structures. My coursework in Modern Cryptography and Data Mining has equipped me with the knowledge to explore datasets creatively and prototype novel use cases. I am keen on implementing new techniques to extract high fidelity information from data, aligning perfectly with the responsibilities of the internship at Recorded Future.

My curiosity to understand data usage, combined with my experience in developing production-grade Python code, make me well-suited for the dynamic environment at Recorded Future. I am eager to apply my skills to contribute to the Security Intelligence product, aiding in shedding light on potential threats hiding in the digital landscape.

With a strong analytical background and a passion for innovative solutions, I am confident in my ability to thrive as a Software Engineering Intern at Recorded Future. I am excited about the prospect of being part of a team that tackles tough data challenges and provides real-time threat intelligence. Thank you for considering my application.
