Roku
San Jose, California

March 20, 2024

Dear Hiring Manager,

I am writing to express my interest in the position within the voice and edge machine learning team at Roku, as advertised. With a background that aligns closely with the requirements and responsibilities outlined, I am excited about the opportunity to contribute to Roku's mission of revolutionizing TV streaming platforms globally.

Throughout my academic and professional journey, I have honed my Python skills and gained hands-on experience in cloud services, especially with Amazon Web Services. My proficiency extends to technologies like Docker, SQL, and Tensorflow Lite. I have actively participated in developing machine learning model data pipelines and have a proven track record in creating machine learning models tailored for embedded platforms. My educational background in Computer Science provides a solid foundation to support these technical skills effectively.

I am particularly enthusiastic about the chance to work on the edge machine learning pipeline at Roku, collaborating on the development of innovative machine learning models for new products. My passion for cutting-edge technologies and my ability to work effectively within dynamic teams make me well-suited to contribute meaningfully to Roku's initiatives.

Thank you for considering my application. I am eager to bring my skills and dedication to the voice and edge machine learning team at Roku, contributing to the continued success and growth of a company that is transforming the TV streaming landscape.
