Guidewire
San Mateo, California

March 20, 2024

Dear Hiring Manager,

I am writing to express my strong interest in the Cloud Platform Support Intern position at Guidewire. With a Bachelor's Degree in Artificial Intelligence from Long Island University and a comprehensive background in machine learning, deep learning, cloud computing, and software engineering, I am excited about the opportunity to leverage my skills and knowledge in a dynamic environment like Guidewire's.

During my role as an AI Research Assistant, I developed AI solutions for real-time academic literature retrieval and implemented projects like PyTorch CNN for MNIST and Computer Vision using TensorFlow, demonstrating my proficiency in handling complex technical tasks. My experience aligns closely with the responsibilities of providing triage and troubleshooting support in a cloud platform environment.

I am particularly drawn to Guidewire's commitment to innovation and teamwork, as reflected in your focus on continuous learning and collaborative problem-solving. My projects and leadership roles, such as founding the AI Club and participating in mathematical olympiads, have honed my analytical and collaboration skills, making me well-equipped to contribute to a team-based resolution activity at Guidewire.
