Visa
Foster City, California

March 20, 2024

Dear Hiring Manager,

I am writing to express my strong interest in the Software Engineer intern position at Visa. As a proactive AI Research Assistant at LIU Brooklyn with a strong background in Python, MySQL, Pytorch, Tensorflow, Docker, C++, JavaScript, Node.js, and Unity, I am excited about the opportunity to apply my technical skills and problem-solving abilities in a dynamic environment like Visa.

My experiences align closely with the responsibilities outlined for the role, such as developing software solutions, implementing robust app factories, and documenting processes. I have a solid foundation in software engineering concepts and methodologies, making me well-prepared to contribute effectively to the innovative projects at Visa.

Furthermore, my proficiency in Python and Java, along with experience in building automation tools using Selenium and REST, positions me well to excel in creating impactful solutions during the internship. I am particularly drawn to Visa's focus on innovation and global connections, and I am eager to collaborate with diverse teams to drive digital transformation.
