Smarsh
Portland, Oregon

March 20, 2024

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Summer Internship 2024 opportunity at Smarsh, as advertised. With a strong background in Computer Science and a keen interest in cutting-edge technologies, I am excited about the prospect of contributing to a dynamic and forward-thinking company like Smarsh.

Through my studies towards a B.Sc in Computer Science and practical experience in programming, I have developed a solid foundation in relevant languages and technologies such as MongoDB, Elastic Search, and Kubernetes. My strong analytical and problem-solving skills, combined with a proactive approach to collaborating in agile environments, align well with the requirements outlined by Smarsh.

I am particularly drawn to the responsibility of designing and developing features in Java for enterprise-grade products, as well as the opportunity to work on internal tools to facilitate operational efficiency. I am keen to leverage my proficiency in JVM languages and interest in modern software architecture to contribute effectively to projects specializing in compliant archival, a domain that resonates with my career aspirations.

Smarsh's emphasis on innovation, collaboration, and fostering personal development resonates with my values and professional goals. I am eager to work alongside your team to deliver high-quality software solutions, while embracing opportunities to learn and grow under the mentorship of senior team members.

Thank you for considering my application. I am looking forward to the possibility of contributing to the success of Smarsh during the Summer Internship 2024.
