Chime
San Francisco, California

March 20, 2024

Dear Hiring Manager,

I am writing to express my strong interest in the Engineering Intern position with the Secured Cards team at Chime, as advertised. With a background in Computer Science and a passion for leveraging technology to solve real-world problems, I am excited about the opportunity to contribute to Chime's mission of making financial progress accessible to all.

During my academic endeavors and internships, I have honed my skills in backend languages like Java and Python, along with a solid understanding of software design patterns and best practices. My experience aligns well with the requirements set by Chime, and I am eager to apply this knowledge to assist in the design, development, and deployment of product features for the Secured Cards team.

My hands-on experience with AWS, coupled with a proactive attitude towards learning and growth, positions me well to thrive in a dynamic environment like Chime. I am eager to work on developing distributed systems in the cloud, collaborating with a cross-functional team, and contributing to the scalability and success of Chime's suite of secured card products.

Chime's dedication to empowering individuals through financial technology resonates with my own values, and I am eager to be part of a team that prioritizes fairness and progress. I am excited about the opportunity to learn from experienced engineers at Chime and contribute meaningfully to a critical initiative. Thank you for considering my application.
