Visa  
Foster City, California

March 20, 2024

Dear Hiring Manager,

I am writing to express my strong interest in the Software Test Engineer intern position at Visa, as advertised. I am Adem Mcharek, currently pursuing a Bachelor's degree in Computer Science at *Your University*, with a projected graduation date of December 2024.

Through my academic coursework and hands-on projects, I have developed a solid foundation in Agile/Scrum software development processes, software QA methodologies, and automation tools like Selenium. My experience in Functional, System, and End-to-End testing equips me to effectively break down requirements into comprehensive test cases and utilize API testing tools such as Postman. Additionally, my knowledge of Java, SQL, Unix, and scripting, coupled with a keen interest in Cybersecurity, positions me well to contribute to Visa's dynamic Cybersecurity organization.

During my previous roles, I have demonstrated strong collaboration skills, resourcefulness, and a results-oriented approach. I have actively engaged in out-of-the-box problem-solving, which aligns with Visa's innovative culture. I am excited about the opportunity to work on impactful initiatives, contribute to global case challenges, and pioneer solutions that elevate Visa in the digital marketplace.

I am particularly impressed by Visa's commitment to continuous learning and development. I am eager to delve into best coding practices and standards while actively participating in the development lifecycle to ensure the seamless operation of applications.

Thank you for considering my application. I am looking forward to the possibility of contributing to Visa's Cybersecurity organization and embarking on a journey of growth and innovation.

Adem Mcharek
