HP Inc.
Palo Alto, California

March 20, 2024

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Data Engineering Summer Internship at HP Inc., a renowned global technology company committed to innovation, client service, and industry expertise. Currently pursuing my education with a solid foundation in Computer Science and Data Science, I am excited about the opportunity to apply my skills and knowledge in a practical setting at HP Inc.

Drawing from my educational background and experiences in projects like optimizing algorithms and modeling for real-world applications, I have honed my ability to leverage analytical tools and translate complex concepts into actionable solutions. The dynamic environment at HP Inc., which values technological innovation and collaboration, aligns perfectly with my career aspirations and skill set.

With a working knowledge of data visualization tools like Power BI and strong SQL coding skills, complemented by experience in Python and advanced modeling techniques, I am well-equipped to contribute effectively to the innovative projects at HP Inc. Additionally, my strong communication, collaboration skills, and self-driven nature make me a proactive learner ready to tackle challenges.

I am eager at the prospect of applying my skills and knowledge to the cutting-edge projects in data engineering at HP Inc. I am confident that my background and enthusiasm for technology make me a suitable candidate for the internship opportunity. Thank you for considering my application.
