Olo
New York, New York

March 20, 2024

Dear Hiring Manager,

I am writing to express my interest in the Data Science Intern position at Olo as advertised. With a background in Data, Computer Science, and Statistical Analysis, coupled with proficiency in SQL, Python, and experience working within Jupyter Notebooks, I am excited about the opportunity to contribute to Olo's innovative approach to enabling restaurant brands to scale online ordering and delivery while personalizing guest experiences.

My significant coursework in Data Science, combined with practical project work, has equipped me with the skills to work closely with your data science team to set up tests, gather insights, and contribute new ideas to existing data products and reports. I am driven by continuous growth and learning, and my curiosity to explore unknowns aligns perfectly with the aim of discovering new business insights at Olo.

I am eager to collaborate with Software Engineers, Product Managers, and Design interns on the Summer Capstone Project, where I can leverage my skills to contribute effectively to team documentation, data dictionaries, and iterate on data products to enhance Olo's platform.

Thank you for considering my application. I am enthusiastic about the possibility of contributing to Olo's dynamic team and being part of a company that drives the digital transformation of the restaurant industry.
