Loop
San Francisco, California

March 20, 2024

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Full-Stack Engineer position at Loop, a leading payment solutions company with a mission to unlock profits in the supply chain and lower costs for consumers. With a background that includes projects such as optimizing algorithms and modeling for complex infrastructures, I am excited about the opportunity to merge my technical proficiency with the intricacies of logistics billing and payment systems at Loop.

Having honed my analytical acumen through diverse academic projects, I am well-equipped to work cross-functionally with product, design, and sales teams to deliver thoughtful solutions. My experience in writing high-quality, extensible code and engaging in code reviews aligns with the commitment to engineering excellence at Loop. I am eager to contribute by leading technical discussions, promoting best practices, and sharing knowledge within the team to drive continuous improvement.

My skill set includes expertise in TypeScript, React, Node.js, GraphQL, along with familiarity with AWS services, CDK, Fargate ECS, Prisma, and PostgreSQL, all of which are directly relevant to the requirements outlined by Loop. I am particularly drawn to Loop's culture of fostering growth and innovation, and I am excited about the opportunity to shape the company's DNA and contribute significantly to its success.
