Bamboo HR
Lindon, Utah

March 20, 2024

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the A I Engineering / Data Science Intern position at Bamboo HR. With a Bachelor's degree in Artificial Intelligence from Brooklyn, NY, where I excelled in relevant courses such as Machine Learning, Deep Learning, and Software Engineering, I am well-equipped to contribute to your growing A I and machine learning initiatives. My academic background, including proficiency in SQL and Python for data querying, aligns with the technical skills required for the role at Bamboo HR.

Having worked on projects involving data mining, business intelligence, and modern cryptography during my academic journey, I have developed a strong foundation in data handling and analysis. I am particularly excited about the opportunity to collaborate with business stakeholders, perform exploratory data analysis, and build machine learning models to enhance customer experience at Bamboo HR. My experience in coding applications that work with data and my knowledge of machine learning algorithms make me well-suited for the responsibilities outlined for this internship.

Furthermore, my exposure to cloud-based environments like AWS and GCP complements the technical requirements for the role. I am eager to leverage my skills in NLP, LLMs, and AI applications to contribute meaningfully to Bamboo HR's innovative projects.

I am impressed by Bamboo HR's commitment to fostering a positive work environment and leveraging technology to empower HR professionals worldwide. I am confident that my technical skills, analytical mindset, and passion for AI and data science make me a strong candidate for this internship. I am eager to bring my capabilities to Bamboo HR and contribute to your mission of setting people free to do meaningful work.
