Intrinsic (An Alphabet Subsidiary)
Mountain View, California

March 20, 2024

Dear Hiring Manager,

I am writing to express my enthusiastic interest in the internship opportunity at Intrinsic, focusing on industrial robotics. As a Bachelor's student in Artificial Intelligence with a strong foundation in relevant coursework like Machine Learning, Deep Learning, and Cloud Computing, I am excited about the prospect of contributing to the cutting-edge work at Intrinsic.

My academic background has equipped me with the analytical skills and proficiency in modern software development languages such as C++ and Python, aligning well with the requirements outlined for the position. I have a keen interest in building tools and interfaces for developing robotic capabilities and have experience translating complex concepts into real-world applications.

I am particularly drawn to Intrinsic's mission of democratizing industrial robotics and believe that my skills in full-stack software development, artificial intelligence, and robotics make me well-suited to contribute towards building a community of developers and real-world robotic applications.

I am excited about the opportunity to collaborate with a multidisciplinary team at Intrinsic and contribute to the advancement of industrial robotics technology. With a passion for solving challenging problems and a drive for innovation, I am eager to bring my skill set to Intrinsic and be part of redefining the potential of industrial robotics through software and data.
